SpinRite 6.0
The most trusted and widely used utility ever written for mass storage data recovery and long-term mainte
already own or know about SpinRite, check out these pages. The future of your data could depend upon it. H
here is Maximum PC's Feb. 2002 review.

ShieldsUP! ← Selecteer deze
The Internet's quickest, most popular, reliable and trusted, free Internet security checkup and information s
also the most powerful and complete. Check your system here, and begin learning about using the Internet

LeakTest
Ensure that your PC's personal firewall can not be easily fooled by malicious "Trojan" programs or viruses.
personal firewalls are now safe from such simple exploitation.

If you are new to this site and our services:

Please take just a moment to read and consider these three points:

Your use of the Internet security vulnerability profiling services on this site constitutes your FORMAL PERMISSION for us to conduct these tests and requests our transmission of Internet packets to your computer. ShieldsUP!! benignly probes the target computer at your location. Since these probings must travel from **our** server to **your** computer, you should be certain to have administrative right-of-way to conduct probative protocol tests through any and all equipment located between your computer and the Internet.

NO INFORMATION gained from your use of these services will be retained, viewed or used by us or anyone else in any way for any purpose whatsoever.

If you are using a personal firewall product which LOGS contacts by other systems, you should expect to see entries from this site's probing IP addresses: **4.79.142.192** -thru- **4.79.142.207**. Since we own this IP range, these packets will be from us and will NOT BE ANY FORM OF MALICIOUS INTRUSION ATTEMPT OR ATTACK on your computer. You can use the report of their arrival as handy confirmation that your intrusion logging systems are operating correctly, but please do not be concerned with their appearance in your firewall logs. It's expected.
