Display name

Other Telephone Numbers

***Telephone number for registration**

Please enter in this column the telephone number for registration. You received this telephone number from your provider. Different providers may call it by a different name. Please enter the telephone number exactly as you received it from the provider, including any special characters it may include.

***Internal telephone number in the FRITZ!Box**

Now enter your telephone number without a prefix and without special characters.

Other Telephone Numbers

Under "Other Telephone Numbers" you can create additional telephone numbers, as long as they have same account information (user name and password) as the first telephone number. Telephone numbers with other account information can be configured later using the "New Telephone Numbers" button under "Telephone Numbers".
