

DIABLO CAM HOT FEATURES:

- **Wireless Card-Sharing between TwinBase and Diablo Cam Wireless.** It works as Card Splitter wireless reading your official Smartcard.
- **Straming Delayer.** No more freezing problems on Card-Sharing.
- **SoftCam.Key upgradable without programming the entire CAM.** Just load the Keys.Bin in the CAM. With DiabloCam Wireless no need to remove the CAM from the receiver. Just do via wireless.
- **XML File Supported.**
- **FileSystem.** Use the CAM like a a file container (hard disk) drag and drop files.
- **Programmable with:**
 - Cas Interface 2, Cas Interface 2+Plus, Cas Interface 3
 - TwinBase

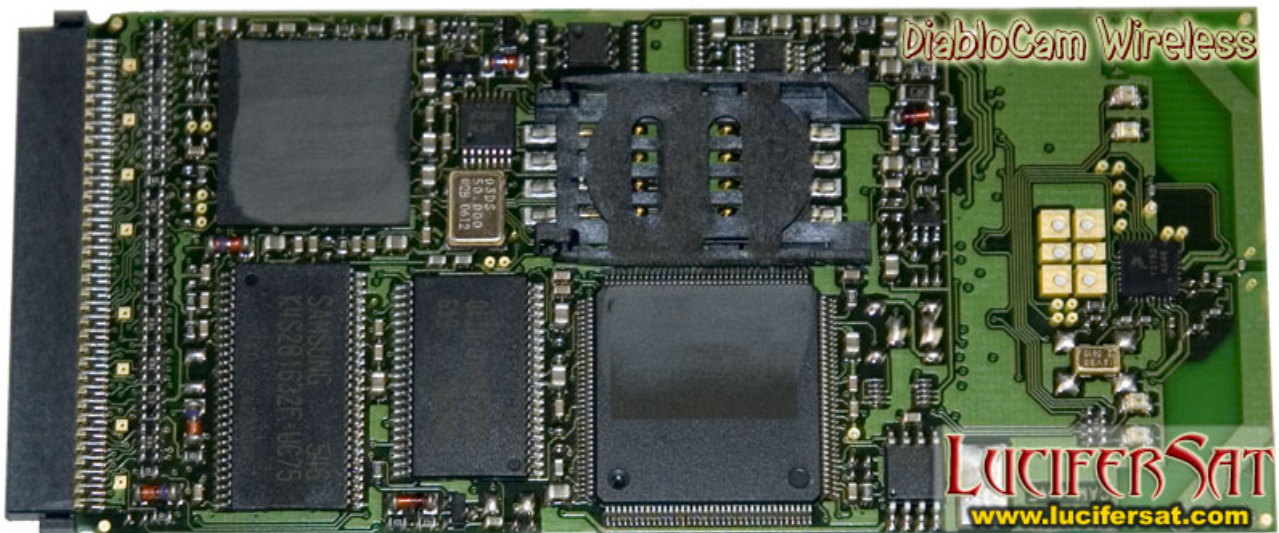

- **Diablo Cam Light:**

Hardware:

- ✓ 50Mhz ARM 7 TDMI Processor with Protected Flash and Ram.
- ✓ 512KByte (4Mbit) S-Ram.
- ✓ 100Mhz DVB Processor
- ✓ 2 MByte (16Mbit) Dataflash.
- ✓ Unique lasered serial Number.
- ✓ 2 Card Slot readers.

Diablo Cam Wireless:

Hardware:

- ✓ 50Mhz ARM 7 TDMI Processor with Protected Flash and Ram.
- ✓ 512KByte (4Mbit) S-Ram.
- ✓ **16 MByte D-Ram for Streaming Delay.**
- ✓ 100Mhz DVB Processor
- ✓ 2 MByte (16Mbit) Dataflash.
- ✓ Unique lasered serial Number.
- ✓ 1 Card Slot reader.
- ✓ Wireless Zig-Bee connection to the TwinBase

Software:

✓ Supports all CAS systems (official smartcards).

- Irdeto
- Betacrypt
- Seca
- Viaccess
- Conax
- DreamCrypt
- Cryptoworks.
- Nagra 1 with BoxKey.
- Others.... he he he ;)

✓ Supports all Emulators:

- Irdeto 1
- Seca 1
- Viaccess 1 and 2
- TPS Crypt (Keys Roll)
- Conax (No Keys around)
- Cryptoworks.
- Nagra 1 and Nagra 2
- Biss
- Fixed Control Word systems.

✓ Programmable with:

- Cas Interface 2 (Bootloader 1.3 and further).
- Cas Interface 2+Plus (Bootloader 1.2, Bootloader 1.3 and further).
- Cas Interface 3.
- TwinBase.

✓ Extra Features:

- **FileSystem.** Allows the user to upload the files into the CAM like new languages, SoftCamKeys, new CAIDs.
- **XML Files supported.** Some files in the FileSystem are in XML. The CAM will read the XML files.
- **Wireless Smartcard Splitter.** You can share your smartcard between more than one receiver via Wireless.
- **Transport Stream Delayer(*).** Delays the DVB streaming up to 2,6 Seconds. This prevents the Freezing while you do the Card-Sharing and allows you to set up to 16 Clients with Diablo Cam Wireless.
(*) function available with Diablocam Wireless Only.
- **Keymaker Software.** PC Software to Edit Keys and Generate the .Bin File.
