Press Release

EYCOS S 60.12 PV2R

*Multi-Room Receiver from EYCOS -
Made For The Family*

Satforce will present at this year`s IFA in Berlin beside its first HDTV-CI receiver, the EYCOS S 60.12 PV2R, a high-end PVR receiver with multi-room function. The receiver is manufactured by the Korean EYCOS Multimedia Systems.

The EYCOS S 60.12 PV2R comes with 3 remote control units, enabling the receiver to control more TV sets placed in different rooms. The second tuner will be used by another TV set. The receiver comes with YUV output via scart connector for plasma and TFT screens, as well as with multifeed function for the Premiere (German payTV provider) sub-channels. A very fast USB port assures a data transfer - from and to the built-in hard disk - of 2GB in less than 3 minutes. The EYCOS S 60.12 PV2R delivers an excellent picture and audio quality and it contains all the features of a modern twin-tuner receiver.

The EYCOS S 60.12 PV2R is a high-end receiver which fulfills the needs of any family.

More about the EYCOS receiver family: www.eycos.de.

**The new receivers will be exposed during the IFA (Berlin, Germany;
1-6 September 2006) in the Hall 1.1, Stand 112 by SATFORCE.**

SATFORCE Kommunikationstechnik GmbH

SATFORCE Kommunikationstechnik GmbH is based in Austrian Hallwang (Salzburg) and is a leading company in the field of satellite communication.
